

Solutions for EUDR supporting stakeholders in wood value chain

**FREE OF
CHARGE**

**Monday 10th
February, 2025**

InnoRenew CoE,
Livade 6a
Izola, Slovenia

Hybrid event:

Please send an email to
coe@innorenew.eu
to receive an invitation
to stream this event.

The objectives of
this event are to
present the application
of diverse solutions
(hardware, software,
concepts) developed within
the framework of the EU-funded
SINETIC project to support
the implementation of
EUDR in the forest
value sector.

EVENT LANGUAGE IS ENGLISH

These solutions are
particularly useful for:

- Traceability of logs from the forest to the sawmill ("first mile")
- Traceability of timber within the sawmill and beyond
- Detection of illegal logging
- Complete IT solutions for collecting information along the entire forest value chain
- Data mining services supporting EUDR requirements

Kindly note that this event may be documented by pictures and video cameras. By participating you declare to agree that these pictures and video recordings may be used and published.
